

The Pathfinder - Your IT Guide

MySherpa Alert: Two Compelling Reasons To Buy A New Computer Now

If you've been waiting for the right time to buy a new computer, August is your month. Two remarkable innovations, dual core processing and BTX technology will speed up and quiet down your computer, dramatically improving your computing environment. Just call or e-mail a Sherpa and we'll get you set up.

Craving More Workspace and Bigger, Better Monitors?

Now is the time to get them, because the cost of high quality 19-inch flat screen monitors has recently dropped significantly. If you are itching for a raise and want to show your boss how productive you really are, or just sick of switching between windows, try multitasking on two or more monitors! Just ask a Sherpa how to do it!

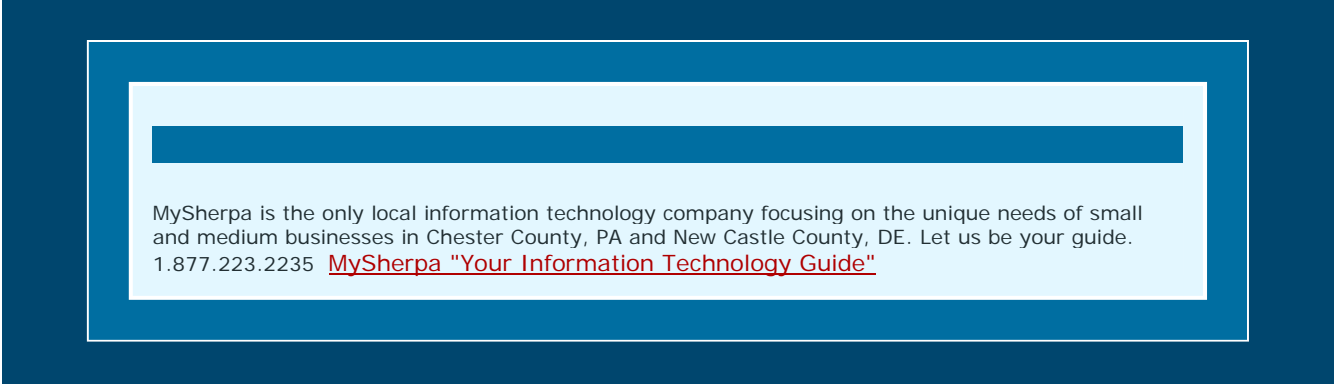

We Have Another New Sherpa Engineer on the Mountain!

Michael Bradley, Microsoft Certified Systems Engineer, Systems Administrator, Database Administrator and a Siebel Certified Consultant, joined our team in late July, after relocating from Baltimore, MD with his family. Michael is already using his superior engineering skills, technical leadership and years of engineering experience to lead our clients through their toughest technology terrain. He is a fabulous addition to our formidable line-up of Sherpas.
